

Don't Be An Easy Target... For Identity Theft

Union Plus® wants to help you learn how to protect your personal information!

DO...

1. Shred all documents containing personal and financial information.
2. Lock up your wallet or purse at work.
3. Make sure you have up-to-date anti-virus and anti-spyware programs running on your computer.
4. Monitor your financial accounts online.
5. Install a locked mailbox or use a post office box to receive your mail.
6. Leave credit and debit cards locked up at home unless you plan to use them.
7. Check your credit reports at least once a year at AnnualCreditReport.com and consider signing up for a credit monitoring service to alert you to changes.
8. Review the Social Security Benefits statement you receive each year carefully.

DON'T...

1. Carry identification cards that include your Social Security number.
2. Print your driver's license number, phone number, or Social Security number on your checks.
3. Leave checks or bills to be mailed where they can be stolen and altered, such as in an unlocked mailbox.
4. E-mail personal or financial information.
5. Divulge personal information over the phone unless you initiated the call.
6. Use easy-to-guess passwords that include your name, address, birth date or consecutive guessable numbers.
7. Store passwords on your computer or write them down where someone else can find them.
