

We Make Early Childhood Education Happen

AFSCME early childhood educators work tirelessly in schools, child care centers, Head Start programs and their homes to provide a high-quality learning environment for the nation's children. Early childhood educators are too often underappreciated, undervalued and underfunded for the work they do. Join your sisters and brothers in the AFSCME Early Childhood Education Network to discuss the issues you face, learn about what's going on around the country, and exchange information and ideas.
