

We Make

# HOME CARE

Happen

AFSCME home care workers enable the elderly and individuals with disabilities to remain in their home and retain their independence by providing support and services such as bathing, feeding, cooking and cleaning. Though they dedicate their lives to the work of helping others, home care workers often do not earn a living wage or have access to basic benefits and job protections. Join your brothers and sisters in the AFSCME Home Care Network to discuss issues we face, learn about what's going on around the country, and exchange information and ideas.
